Dear Attorney General Ford,

I write the following to you because my most basic rights of attaining body camera footage from the Las Vegas Metropolitan Police are being violated. I have already paid for this body cam footage, which occurred over a month ago now.

I detail the history of the matter herein.

- On October 13, 2024, two Anti Terrorism LVMPD officers attempted to enter my parents home in Las Vegas, 89149.
- My parents, Berj and Sonia Yenovkian, refused to allow entry to the two LVMPD Anti Terrorism Officers.
- On October 14, 2024, 'up to 12 LVMPD Anti Terrorism officers" descended upon my parents home.
 - They had no warrant.
 - Sheriff McMahil has stated to Steve Sanson that this incursion upon my parents home was not authorized.
 - The Anti Terrorism officers acted in a threatening manner toward my parents, who are 82 and 77 years old, elderly individuals.
 - My parents were terrified.

- Until today, my elderly parents have trauma from this event that has effected their health, wellbeing, and finances.
 - The Head of the Anti Terrorism unit stated that they were there on a “welfare check” on October 13, and October 14, 2024.
 - My parents stated that their welfare was fine, yet the 12 Anti Terrorism officers refused to leave on October 14, 2024
 - Only when Steve Sanson called various Judges, and Sheriff McMahil, only then the Anti Terrorism officers decided to leave on October 14, 2024.
- Following these incidents on October 13, and October 14, 2024:
- Immediately, the witnesses and victims to these events filed complaints with the Citizens Review Board and the LVMPD. These witnesses and victims are Steve Sanson, Berj and Sonia Yenovkian. The Complaints are attached herein as EXHIBITS 1 to 3.
 - Despite filing these complaints immediately, incident numbers were not issued and conveyed to us until weeks after the filing of these incident numbers.
 - Steve Sanson and Vem Miller had to pay two personal visits to the LVMPD, both documented by a journalist, in order for LVMPD to relent and give the incident numbers.

Body Cams:

- Body cams were requested by Steve Sanson and I, under the Freedom of Information Act.
- That Request is attached under EXHIBIT 4.
- A bill was sent for \$1283.73 for said body cams.
- This bill was paid November 7, 2024. Proof of this is attached as EXHIBIT 5.
- On December 6, 2024, Steve Sanson was told that it could take up to 18 Months to attain said body cams.
- On December 7, 2024, Steve Sanson wrote an email to Sheriff McMahil stating that it was ridiculous that body cams could take up to 18 months, and this was clearly an attempt to cover up and

frustrate what is ultimately a threat of exposing corruption and bad behavior of the LVMPD. This is attached as EXHIBIT 6.

Prayer for Help from Attorney General Ford in Attaining Said Body Cam footage in an expeditious fashion

- It is my statement, Vem Miller, that the reason the LVMPD are trying to frustrate the attainment of body cams is in order to help frustrate and / or cover up progress in my lawful actions against those who grossly violated my rights, and the rights of my family, starting October 12, 2024.
- Attorney General Ford, I know that you are sensitive to police misconduct and abuse of power.
- I firmly believe that this incursion upon my parents home, on October 13, and 14, 2024, by the LVMPD, was an abuse of power, at the minimum.
- Now they want to cover up their own mistakes.
- This body cam footage will be embarrassing to the LVMPD, but it should be embarrassing, and without it being embarrassing, the type of training and reforms that are necessary, wont take place.
- The recent “accidental shooting”, or some would say, murder, of Brandon Durham, is further evidence that the LVMPD has gaps in process and training.
- The LVMPD Anti Terrorism Unit had descended upon my Parents home because they thought I lived there, and because they were given some false information about me. So in the heat of that moment, I could have been Brandon Durhammed.
- I truly believe there is good chance that due to the continued errors of the LVMPD, I would have been dead had I been there when they tried to conduct their warrantless entry into my parents home.
- And now you would be dealing with the clean up of an innocent man being killed Attorney General Ford, which of course would be a head ache for you.
- The solution is Freedom of Information, but right now, the LVMPD is preventing us from getting that information, and whereby a normal delay

would be 10 days, they are trying to extend this to 18 Months in order to frustrate the lawful process.

- Therefore, I ask Attorney General Ford that you step in and compel the LVMPD to release the Body Cam Footage in question, urgently, as we are already past the permissible wait time once footage has been paid for.

Thank you Attorney General Ford.

DETAILS (Please be specific and include the names of any witnesses)

On Sunday 10/13/24 Ven Miller's parents (Silva Balabanian and Berj Yenov Kian) ages 78 and 81 years old. contacted me and told me that they received a business card from LVMPD Sergeant Tullio Pandullo from Southern Nevada Counter Terrorism Center on their front door. They asked me what to do. I told them I could call him to find out what he wanted and they told me I should correspond with their son Ven Miller. The next day Monday October 14, 2024 I received communication from Mr. Miller's parents informing me → (ON BACK)

that police officers surrounded their home looking in windows with flashlights. They asked me to come to their home. I immediately headed to their home. When I arrived there were approximately seven to 12 police officers in front of Miller's parents home. The neighbors were out as well. When I approach the Miller's parents home, I was immediately confronted by officers, telling me that I wasn't allowed to go and knock on the door. I asked why not Sgt Legrow told me that they were there for a "welfare check". I responded why, they said someone called. I asked who called, I received no response. I was immediately escorted off of the Miller's parents property. I asked Sgt Legrow why does it take a dozen police officers to do a "welfare check". I received no response. I called Mr. Miller's parents and told them that officers are out in front of their home and want to do a "welfare check". They said no one called for a "welfare check" and I told them that officers →

had no jurisdiction for what allegedly happened with their son in California no US Marshall or FBI accompanied the police. I also told the parents that they had "no search warrant and if they did to make sure it was signed by a judge. IF they did have a warrant they would have kicked in your door. That the officers are trying to gain illegal access to your home (and) not to let them in. So they called the owner of the home, because the miller's parents are renters. So I called the parents again and told them do not let the owner into their home, because they have a lease agreement. Immediately Sgt Le Grow said in a loud voice I will arrest you for "Obstruction of Justice. I responded "Obstruction"

I was reading on Sunday evening + I saw a light, strong light projected towards the room, I went to the window + saw a person walking closer to the window. I was terrified, I did not believe my eyes if what I was seeing was real, or horror movie or a haunted house horror I was experiencing. I closed the blinds to the maximum - + I heard many strong knocks on the window, the light, the door bell ringing in the dark - I started to sweat, my heart was pacing out of control, when I went towards the kitchen, I witnessed the same thing light projected right + left towards the foyer,

Steven Senson for being there + to communicate to help us - We are Senior citizens - there are lots of scammers against Senior citizens - what was the purpose of this? was it ambush? what did they want from elderly couples? the Monday night we starved, we were shaken up we could not prepare dinner because of the affect of sleep crogers + many in uniform - My husband is diabetic + he needs to take insulin + food at certain hours of the day - he suffered hypoglycemia - I poured sugar + orange juice in his mouth + molasses - till he came back to so called normal blood sugar level -

Still not sure what they were thinking of doing to elderly couple - why did they arrive both days in the dark? we are traumatized, afraid to open the blinds go to the back yard, each noise is causing panic, each passing car causing panic - each car light causing panic, when I pass by the window my shadow reminds me to look through the window and see a person with a flash light - beside the affect of the light + old damages, is the fear seeing a person in the dark looking through the window, the fear had stopped us from going out - we feel anxious - exhausted, very tired + fear - not sleeping well, kind of shaking all the time + fear that persons are at the window, or backyard, or anywhere in the house hiding - this has disturbed serenity of my mind.

DETAILS (Please be specific and include the names of any witnesses)

In the evening of ^{SUN} Oct. 13/2024, our doorbell rang. Because we (me and wife) live in a compound with (security guard) in a gated community we get notified when a visitor comes. As the guard did not call us, we did not open our door. After several knocks on the door and windows, the person left. The next morning we found the business card of Tullio Pandullo on our door, which says "From ^{counter} ~~the~~ Terrorism Center." We thought this was a mistaken identity.

On the evening of Mon. Oct. 14/2024 around 6 pm. again there was a knock on our door, followed up by several knocks on our windows. We did not open the door and called our friend Steve Sanson, who kindly volunteered to come over. ^{also shining their flashlight from the windows}

Event #: Harassment

In the meantime the knock on our door and windows continued. We were very scared.

Steve arrived shortly afterwards and notified us by phone, that there were 3 police cruisers and some 15 policeman from anti terrorism center, who presumably have come to check on our well being and wanted get in. We told Steve to tell them "We are O.K. that they can see us from our window. Two policeman came to the window directing their flashlight at us. The first thing I asked was, "Do you have a search warrant?" They said "No, but your neighbours were concerned about your well being." I asked, "which neighbour?" they were still insisting us to open the door. We declined. Steve asked them to leave and stop harassing us. We also called our neighbors and no one had contacted the police.

Why did the anti terrorism police come into our house with 3 cruisers and 15 policeman, just to check our well being? Why were they insistently banging on our door and windows to the tune of breaking them? These events traumatized us to the extent that we have lost our sleep, we are having nightmares and we constantly, subconsciously keep looking outside the windows frequently, expecting to see a police. We are 81 years old and 77 years old, and have got nothing to do with terrorism.

To pio@lvmpd.com, Sheriff, veteransinpol@aol.com

Attention PIO and Sheriff McMahill:

I was told that the body cameras would take up to 18 months. This method is used to run out the Statue of Limitations. I would need to know in writing as to the amount of time it would take for these images to be in my custody. According to the FOIA request it should be a reasonable amount of time and the FOIA also indicates if it takes longer than 15 days I should be contacted in writing. This process has not taking place.

The time frame for police to respond to a Freedom of Information Act (FOIA) request, including requests for body camera footage, depends on whether the request is made under federal FOIA or a state-specific public records law. Here are the general guidelines:

Federal FOIA Requests

the request is made under federal FOIA or a state-specific public records law. Here are the general guidelines:

Federal FOIA Requests

- Agencies must respond to FOIA requests within 20 business days after receiving the request.
- This period can be extended by an additional 10 business days if the agency cites “unusual circumstances,” such as the need to search multiple locations or consult with other entities.

Exceptions for Body Camera Footage

Some states or agencies may deny or delay access to body camera footage due to:

1. Ongoing Investigations: If releasing the footage would interfere with a case.
2. Privacy Concerns: When footage contains sensitive or private information.
3. Redaction Needs: Additional time may be required to redact parts of the footage.

What You Can Do if Delayed

What You Can Do if Delayed

- Follow Up: Politely inquire about the status of your request if the deadline passes.
- Administrative Appeal: Challenge the delay or denial through the agency's appeal process.
- Litigation: File a lawsuit for non-compliance if the agency fails to respond within the legally mandated time.
